Sir:

For the possible benefit of anyone subsequently evaluating the scope and/or validity of the above-identified patent, it is requested that the document that is listed below (copy enclosed) be placed in the U.S. Patent and Trademark Office's file wrapper of the above-identified U.S. application.

The undersigned has not reviewed the teachings of the above-listed document in detail and thus makes no representations concerning the relevancy or materiality of the above-listed document.

The undersigned notes that the document discloses a cylindrical pole 7 is extended from a thin-shaped base section 6. A binoculars-shaped housing 8 is disposed on the pole 7 movably in the horizontal and vertical directions. A first sensor 11 for detecting the horizontal movement of the housing 8 is provided within the pole 7. A second sensor 18 for detecting the vertical movement of the housing 8 is provided on one side portion of the housing 8. Displays 13, lenses 14, eyepieces 15 and reflection mirrors 16 are arranged within the housing 8. The first sensor 11, the second sensor 18, the displays 13 and a memory device storing a game program are connected to a controller 20. Upon the activation of the game, the game images are displayed on
